CAPE COD and COLONIAL HOMES

THE HOUSE ON THE COVER

No. 5035—All of the dignity and charm of the traditional Colonial home has been combined with an excellent floor plan to produce this modification of the basic Cape Cod plan. If the garage is omitted the house will have a frontage of only 31 ft. making it suitable for a narrow city lot.

Complete Plans Available

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The plans are complete and ready for the builder to start construction of the home. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—The square and cubic footage is given for each plan to assist in figuring estimates. An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

ORDER YOUR PLANS THIS SIMPLE, EASY WAY!

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications list in detail the con-

struction of the house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

No. 6008—When adapted to a modern floor plan such as this there is a never-failing charm in a Cape Cod design. Equally attractive in an area of single-story houses or story-and-a-half, this Cape Cod has three large bedrooms, two full baths, and generous closet space. Being served by a hallway, the first floor bath is equally accessible from either the kitchen or the bedroom. The central hall with open stairway lends itself to interesting decorative treatment. There is a full basement.

No. 4060—This eight room colonial home has many noteworthy features. Each of the four bedrooms is of generous size and ample closet space has been provided throughout the entire house. There are built-in chests of drawers located in the large second floor bedroom and hall. The study or den with book shelves at one end is set off from the living room and can be closed off entirely, if desired, by the addition of a door. The U-shaped kitchen contains plenty of cupboard space and sufficient room for a breakfast table. The house is of frame construction brick veneered, with siding used on the study, kitchen and second floor exteriors.

To the visitor approaching a home for the first time, the entrance, the front lawn, the walk, the driveway, and the landscaping contribute greatly to the first impression. He then sees a beautifully designed doorway, inviting him to enter. Through the open door he glimpses shining floors, harmonious colors and tastefully furnished rooms. He is drawn on into the house, to its comfortable furniture, its carefully thought-out appointments. On every side he sees the personality of the occupants reflected in the lovely and livable rooms. He thinks to himself, "This is a HOME."

No. 5582—This beautiful Cape Cod home will fit into any up-to-date community. Note the compactness of the plan and how every inch of space is used to good advantage. There are no costly offsets in the plan and the rooms on the second floor have been made habitable by the addition of dormers, resulting in minimum construction costs. The exterior walls are frame, brick veneered. Plans show a full basement.

The designs in this book were planned and designed after many years experience in building houses and helping people select plans for their homes. The designs have been carefully thought out with consideration for the requirements of the difference in the size of families and they are of maximum quality at minimum expense.

No. 6450—Although the traditional center hall has been eliminated in this modern version of the Cape Cod design, the rooms are so located that there is no cross-traffic any place in the house. The efficient U-shaped kitchen has both a breakfast nook and a serving bar. The downstairs bath has a shower, while a tub is specified for the upper bathroom.

No. 5588—A home designed for comfortable and gracious living and suitable for either town or country. Examination of the room arrangement shows the results of careful planning. An enclosed porch is shown in back of the garage affording privacy from a busy street. The bedrooms are large and numerous closets and storage space have been provided. Stairway marked "DN" leads to a full basement. The brick trim shown on the front elevation is a pleasing contrast to the siding shown on the balance of the house.

No. 2896—Here is a truly livable Colonial home that is simple and plain, but attractive in appearance. All rooms can be entered from the large halls. The spacious well-lighted living room is an outstanding feature since it is set off from the other rooms. A conveniently arranged kitchen permits easy access to the dining room, lavatory, hall and breezeway. The sliding doors located in the closets of the small bedrooms eliminate waste space. Garage is designed to include space for work bench and tools. Garage and breezeway may be omitted if house is to be placed on a narrow lot. The house is of frame construction with shingled exterior.

The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error which is often the case if approximations are made on a square-foot or cubic-foot basis.

No. 6439—Adapted from Early American styling this seven-room house has an extremely modern and convenient floor plan. It is a house that can grow with the family's needs, for the first floor contains a complete arrangement for a five-room house, making it possible to leave the second floor unfinished until the space is needed at some future time. The front-to-rear hallway system not only is convenient but also aids in eliminating needless traffic through the living and dining room. The area immediately behind the garage would be an ideal location for a terrace.

GARLINGHOUSE plans are available as shown above or in the reverse position. On a plan that is reversed, the rooms shown on the left side of the house would be on the right side and vice versa. This is done in order that the house may be orientated to suit your lot. GARLINGHOUSE Plans when requested in the reversed position are actually reverse plans not just plans printed backwards so that it is necessary to use a mirror to read the dimensions. We make up special plans in the reverse position and they are as easy to read and follow as the original plans.

No. 7108—This moderately priced story and a half plan has a bedroom and bath down and two large bedrooms and bath up. The living room is at the back so you can take advantage of the scenery away from the street. This adds to the privacy of your living room. The den could be used as another bedroom if needed.

COMPLETE PLANS AVAILABLE

Garlinghouse plans are very complete, ready for your builder to begin construction immediately. They are drawn in accord with FHA and VA requirements, subject of course to local interpretations. The working drawings (blueprints) are liberally dimensioned. They contain drawings and notes designating the location and type of materials. With these plans, your builder can estimate accurately the cost of building the house

in your area, then of course use them for the actual construction of your home.

When you order the reverse of a plan you get the same quality of blueprints that you get when ordering them as shown. The lettering and dimensions are not backwards. There is no chance for errors due to an upside down blueprint. Garlinghouse plans will save you money.
